Welcome!

We are glad that you decided to participate in the **Families First Program** and look forward to getting to know you. We want to work with you to focus on the challenges you are facing.

Parenting is a challenge no matter who you are. It is easy to feel confused, scared and overwhelmed at times. We want to work with you to make sure that your children have the opportunity to grow up healthy and happy.

Families First of Michigan believes that parents and their children should remain together whenever possible. We believe that people can change and grow. We work from a strength based approach and believe that progress can happen if we work together. We can provide helpful information about parenting, communication, budgeting, child development, substance abuse recovery, and strengthening relationships. We know about many resources in the community that we can link you with to meet your needs.

A famous poet, Maya Angelou, wrote, "It takes a village to raise a child". We want to be part of your children's village and support you as you work to be the best parent you can be.

This may result in your CPS worker taking you to court.
