At Family & Children Services we strive to keep families together and prevent the removal of children from their birth homes. In cases where removal is necessary, we work to make it temporary - our goal is to return children to their homes as quickly as possible. Part of this is done by offering a variety of family preservation services to the families of Calhoun County.

This menu of services was created as a guide to assist you in determining what services might be the best for each of your families. Inside, you will see a continuum of services that are offered, eligibility criteria, and how to make a referral.
