# 24-Hour Rapid Response Team For Youth Facing a Mental Health and/or Substance Use Crisis

At Family & Children Services, we understand the importance of early response to serious situations - especially with youth.

The Mobile Crisis Response (MCR) Program is a comprehensive, community-based service providing immediate response 24 hours per day, seven days per week throughout Kalamazoo County.

## Mobile Crisis Response is . . .

A team of professionals trained specifically to work with youth and their families. Clinicians are skilled in crisis intervention, clinical assessment addressing serious mental health issues, developing crisis safety plans to address risks and behaviors associated with mental health and substance use issues, and coordinating short-term crisis placements for youth. The MCR team has up-to-date access on community resources and critical youth issues.

- MCR provides a prompt response from caring professionals who will assess and respond to your crisis situation
- With a focus on individual choice, the family determines what is a crisis and decides when, where, and how MCR will respond
- MCR provides follow-up services after a crisis and is available to work with youth and families or providers to assist in developing safety/crisis plans
- MCR is able to provide Critical Incident Stress Management (CISM) debriefing for youth, families, and organizations within the community
